

# Gosford Hospital

---

An IntraSpace Project

## ABOUT THE PROJECT

GOSFORD Hospital is on track to becoming the Central Coast capital's tallest building and a "world-class" medical facility by the end of 2019.

"Together with the \$200 million Wyong Hospital redevelopment, the \$348 million Gosford Hospital redevelopment is delivering next-generation, first-class health care to the Central Coast," Ms Berejiklian said. "The technological advancements in the new 11-storey tower block are incredible, including - for the first time - a nuclear medicine service which will greatly improve diagnoses for a range of conditions and speed up scans for emergency patients."

The new tower features:

- A new Special Care Nursery, with expanded capacity for newborn cots from 10 to 15 and pull-out beds for parents and carers;
- New Intensive Care Unit with glass screens that can be switched to opaque (instead of curtains);
- A new MRI machine to diagnose stroke, cancer, infection and joint abnormalities;
- Each unit has single or double rooms with ensuite and a patient/relative lounge;
- Dedicated staff and patient lifts to offer more privacy.

The complete redevelopment, due to be complete by 2019, also includes a new \$35.5 million carpark and refurbished spaces for allied health, cancer day unit, emergency short stay unit and cardiovascular services.

## PROJECT SCOPE

IntraSpace worked closely with Lend Lease to ensure that all aspects of this project ran on time, met all site requirements and deadlines while providing an extensive amount of FF&E for the 10 floors.

Products included lockers and drug safes, a number of custom storage solutions and smaller items such as hooks and mirrors. During Construction we also were engaged by Central Coast Area Health Service to prescribe, specify and install all the shelving and storage solutions for the project. Solutions such as modular basket storage and wire mesh shelving, a large number of trolleys, and pharmacy shelving.

This was the first major project that we introduced the new IntraMed Epoxy coated shelving in static and mobile top track set ups.

## ABOUT INTRASPACE

IntraSpace is dedicated to providing effective and efficient Storage & Office Furniture Solutions for all areas of Healthcare, Schools, Universities, Libraries and Corporate Offices.

IntraSpace works with our clients across Australia in the design, layout, supply and install of quality Storage and furnishing solutions. Central to our design philosophy is the combination of best use of space with the ability to refresh floor layouts via flexible solutions.

With over 15 years' experience, IntraSpace designs high quality, compliant retro-fits, upgrades or new fit-outs that function seamlessly within the everyday demands of your space ...because space is valuable!
