

Sunshine Coast University Hospital

An IntraSpace Project

ABOUT THE PROJECT

- The Queensland Government is investing \$1.8 billion in a new public tertiary teaching hospital on the Sunshine Coast to meet growing demand for hospital services and to train the local health workforce of the future.
- The new tertiary teaching hospital will open in a stage approach in 2017 with around 450 beds and ramp up to 738 beds by 2021, with capacity to be expanded to 900 beds beyond that time if needed.
- Sunshine Coast University Hospital will form part of the Sunshine Coast Hospital and Health Service's network of hospitals that includes Nambour General Hospital, Caloundra Health Service, Gympie Hospital, Maleny Soldiers Memorial Hospital and a comprehensive range of community and primary health services.
- The Sunshine Coast University Hospital is the first major new, not replacement, public hospital built in Australia in more than 20 years and is being delivered as the State's first public hospital Public Private Partnership (PPP).
- The Department of Health has entered into a contract with Exemplar Health to design, construct and maintain the facility for 25 years once the new hospital opens.
