

# ATTENTION

## All Architects and Specifiers

Ring today to request  
or logon to **UNIFI Connect**  
on [www.unifilabs.com](http://www.unifilabs.com)

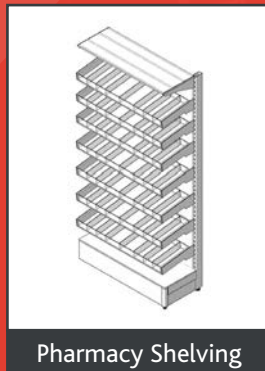

If you thought **IntraSpace** has a lot to offer you, we have even more.  
Brand new **Revit Models** -- all ready to use.

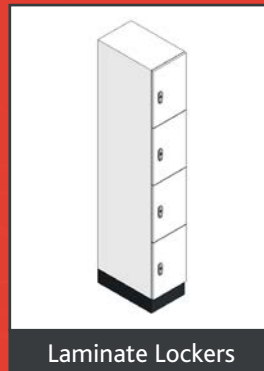

Wire Shelving

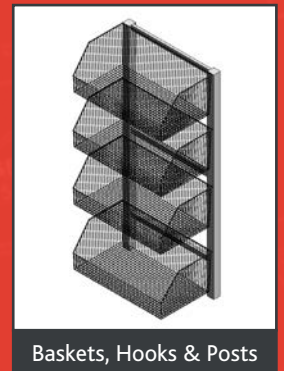

Clinical Storage

Pharmacy Shelving

Laminate Lockers

Baskets, Hooks & Posts

IntraSpace has partnered with global leaders in BIM (Revit) content UNIFI to develop a high quality Revit content library for our Shelving and Lockers products ranges.

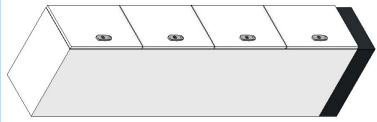

Documenting Shelving and Lockers within Revit has never been easier or more efficient. The library includes highly parametric Revit families that ensure 2D, 3D and scheduling documentation deliverables can be created with ease, supported by a 'non-intrusive' materials library for realistic visualisation outputs.

For designers using UNIFI's cloud-based content management platform, we are excited to announce the IntraSpace library will be available via UNIFI's new manufacturer content portal, 'UNIFI Connect'.
