DISPENSARY PULLOUT TRAYSHELF

The Dispensary PullOut TrayShelf is a special flat shelf attached to a bracket frame by drawer runners. The bracket frame attaches the Dispensary PullOut TrayShelf to a gondola or wall stripping. PullOut Bracket Locks lock the bracket frame to the gondola to prevent it being dislodged when the Dispensary PullOut TrayShelf is opened. The TrayShelf and the top of the Shelf Front have a series of slots or seats to attach FastFit Dividers.

Benefits

- \ Full product visibility
- \ Easy to open
- \ Easy to set up
- \ Stores more drugs

Finish

Pearl white powder coated. Other colours to order.
